

March 26, 2020

Due to Covid-19 virus pandemic and its unknown life cycle. We at Rapid Removal have decided to follow the national response set forth by the big national waste haulers in the U.S.A.

These haulers are suspending weekly bulky item pickup and the spring cleanups due to the virus living on these items. Also, because these items require more than one person. Exposing two or more people!

In addition to the above two changes. All waste companies have implemented the following;

- Carts only nothing on the outside. If carted!
- Bagged trash only if not carted.
- Increase the bag limit to 12. (13 gallon)
- Do not come into close contact/proximity with residents while on the route.
- Suspend all move-in, or move-out trash pickup.
- Maintaining weekly trash service takes priority over all special request.
